

Palm Leaf Craft

1. Cut out the template.
2. Colour in just the fingers of the leaf with green pen or crayon on the front, then turn it over and colour in the entire back of the template in green.
3. Put a line of glue where indicated on the front.
4. Place a pencil on the right-hand edge.
5. To form a stem, start rolling the paper around the pencil from the right-hand side into the middle until on top of the glue, then slide the pencil out of the stem.
6. Bend the fingers in opposite directions behind the stem.
